

**Description:** Do you talk more than you listen? Rate yourself on chart #1. Cut out charts #2-4, write your name on each chart, and ask three of your classmates to score your talk/listening ratio. Compile the averages of charts #2-4. Does the final score reflect how you rated yourself? Were there any surprises? If so, what are some reasons?

Chart #1

Name \_\_\_\_\_

Check the line of the ratio that best represents the percentage of the time that you generally:

**Talk      Listen**

10	90	
20	80	
30	70	
40	60	
50	50	
60	40	
70	30	
80	20	
90	10	

Chart #2

Name \_\_\_\_\_

Check the line of the ratio that best represents the percentage of the time that you generally:

**Talk      Listen**

10	90	
20	80	
30	70	
40	60	
50	50	
60	40	
70	30	
80	20	
90	10	

Chart #3

Name \_\_\_\_\_

Check the line of the ratio that best represents the percentage of the time that you generally:

**Talk      Listen**

10	90	
20	80	
30	70	
40	60	
50	50	
60	40	
70	30	
80	20	
90	10	

Chart #4

Name \_\_\_\_\_

Check the line of the ratio that best represents the percentage of the time that you generally:

**Talk      Listen**

10	90	
20	80	
30	70	
40	60	
50	50	
60	40	
70	30	
80	20	
90	10
